A Class for Preschool Children with Speech Sound Delays

This group is for 3- and 4- year old children who have difficulty saying certain speech sounds. Speech sound production and pre-literacy skills are taught through fun and exciting activities.

Program Includes:
♦ A full speech and language assessment
♦ Weekly two-hour group therapy sessions designed to promote speech and pre-reading skills
♦ Weekly parent sessions designed to teach strategies that can be used at home to support speech development
♦ Individualized attention and goal planning
♦ A written report detailing assessment results and child progress
