Language and Play Everyday
A Service and Research Project Conducted by the Speech-Language Hearing Center at the University of Oregon

**Training and Support for Parents of Toddlers with Language Delay**
This group is geared towards children ages 20-35 months with less than 50 spoken words.

Program Includes:

- A full developmental and speech/language assessment (4 hours)
- Group support and training for parents on language and play strategies to use at home (5, 2-hour sessions) (babysitting available)
- Individualized parent-child support based on child needs and family preferences (3, 1-hour sessions)
- A written report detailing assessment results and progress

**When?**
October 2010 - Assessments in child’s home
November 2010 – March 2011
Fridays 3-5pm
Group and individual sessions

**Cost?**
No cost to participating families.
